About The Point at Otterbein University:

Otterbein has partnered with leading organizations from the private and public sectors in central Ohio to create The Point at Otterbein University, a new science, technology, engineering, arts and math (STEAM) Innovation Center that combines academics with the business and manufacturing needs of the community. The Point and its STEAM Innovation Center is home to two resident companies and Otterbein academic departments, with lab space available to businesses and the broader community. The purpose of the center is to convert ideas into commercialized products and services.

The Point at Otterbein contains 61,000 sq. ft. of space for State of the Art Classrooms, 3D Printers, a Wood Shop, Metal Shop, Machine Shop, an Electronics Shop, and is a business incubator.
